## **Reminders**

### **Participant Expectations and Meeting Logistics**

## Recap of the ATE Task Force Scope and Charge

**Scope:** Automated traffic enforcement (ATE) measures in DC and ATE related policy and operations; fine and fee schedule for moving violations; driver education and behavior change as they relate to ATE

**Charge:** Research and make recommendations for ways in which the District could improve the way it uses ATE as a tool to maximize traffic safety and minimize disparate impacts of financial penalties on drivers

# **Factors to Balance**

**Disparate burden  
of traffic fatalities  
in Wards 7 & 8**

**Risky drivers**

**Disproportionate  
impact of flat  
fines & fees on  
low-income  
households**

**Use of ATE  
cameras to enforce  
traffic safety laws**

**Large proportion of  
violations by out-of-  
state drivers**

**Decrease in ATE  
ticket compliance**

# Pilot Subcommittee – Overview & Finalized Staff List

- Study the **feasibility & advisability of a pilot program** to balance traffic safety and equitable traffic fine burdens to maximize the efficacy of the District’s ATE program.
- Recommendations may include or go beyond an ability-to-pay pilot as laid out in the Mayor’s Order and should be feasible for implementation in FY24 with potential for future expansion contingent upon successful results.
